

Pape Group's Experience with ConcealBrowse

Pape Group, a leading heavy equipment and machinery provider, recently integrated ConcealBrowse into its IT infrastructure. This case study highlights their journey and the impactful results of using ConcealBrowse.

DISCOVERY & IMPLEMENTATION

Pape Group was introduced to ConcealBrowse through [3 Tree Tech](#), a Fortune 1,000 Tech Scout. The recommendation came when the company was actively searching for a unique solution to limit access to specific websites, particularly Generative AI sites, while also enhancing their overall browser security. ConcealBrowse stood out by offering robust functionality to block unwanted sites on top of its comprehensive browser security features.

The implementation process of ConcealBrowse was quick and seamless. Pape Group opted for a phased approach, rolling out the solution company by company, which took approximately a week and a half to complete. There were no significant issues during the installation process, highlighting the product's ease of deployment.

USAGE & INTEGRATION

ConcealBrowse is now extensively utilized throughout Pape Group, securing all **3600+ devices** used by field techs, shop techs, and sales teams. This widespread adoption underscores the trust and reliability placed in ConcealBrowse by the entire organization.

PAPE GROUP'S GOALS

Short-term Goals: The primary short-term goal was to stop users from accessing Generative AI sites and to function as an effective content blocker.

Long-term Goals: The long-term goal is to protect users from potentially dangerous online behavior and reduce the risk of cyber threats by preventing click-happy tendencies.

Pape Group's experience with ConcealBrowse demonstrates its effectiveness as a cybersecurity tool. It has successfully limited access to unwanted sites, minimized administrative overhead, and enhanced overall network security, making it an invaluable addition to any organization's cybersecurity arsenal.

TOP 3 VALUE PROPOSITIONS

Team Responsiveness: One of the standout experiences between Pape Group and Conceal has been their responsiveness to requests for add-ons and updates as Conceal has time and time again done what has been asked.

Set it, Forget it: Pape Group appreciates the low effort required to run ConcealBrowse once it is installed on a machine.

Fast Time to Value: With the ease of installation only taking seconds, Pape Group's ability to deploy and see immediate value has been a standout feature of the ConcealBrowse deployment.

PETER ROSENAST

Network Security/Firewall Administrator, Pape Group

"ConcealBrowse has been a game-changer for us. 3 Tree Tech recommended it as we needed a different solution to limit access to specific websites, and it delivered beyond our expectations. The installation was quick and easy, and now, every device in our organization benefits from its robust security features. The support team has been incredibly responsive to our needs, and the best part is that it operates so smoothly in the background that our users don't even notice it. We highly recommend ConcealBrowse to anyone looking for comprehensive browser security."
